

Markanda National College Shahabad Markanda  
Ladwa Road, Shahabad

**Solid and E-waste Management Policy**

The College is equally concerned about environment management and conservation. The college is collecting its solid waste through dustbins, which is further collected by Municipal committee from college premises. The organic manure is used for potted plants and lawns of the college. The other solid waste includes paper, plastic and non bio-degradable waste. The college provides separate dustbins for the same. The wet waste is disposed off in the sewer of the municipal committee. All the chemical waste generated in the Chemistry lab is disposed off under strict adherence to environment safety. The college administrative staff is encouraged to use less paper with the help of Information Technology. The faculty members are using ICT tools for imparting education and hence are contributing in less usage of paper. The college takes steps to spread awareness among its stakeholders through various practices like – green computing, user awareness programs of various durations. NSS and NCC units of the college also spread awareness of Govt. initiatives like Swachh Bharat Abhiyan in the adjoining areas. The college follows Govt. norms for disposal of electronic waste – CPU, LCD, Printers, Cartridges etc. The college is running traditional courses viz; BA, B.Com and B.Sc. There is no source of production of Radioactive Hazards and Biomedical Waste.
