## CERTIFICATE COURSE IN PUBLIC FINANCE

<b>Course Level</b>	Certificate
<b>Duration</b>	6 months
<b>Examination Type</b>	Non Semester
<b>Eligibility</b>	Min 10+2 passed
<b>Admission Process</b>	Open to all

Public finance is the subject of finance and economics, providing students with an insight into the role of the government in an economy. It manages revenue, expenditures, and the debt load of a nation with the help of public and quasi-public organizations. This course helps the students to understand about taxation effects, public expenditure and borrowing, and deficit financing of an economy. Thus, public finance helps the government to evaluate its expenditure and revenue contributing to the growth of an economy.

Moreover, the scope of public finance can be determined by three factors namely: Allocation of resources, Even distribution of income, and macroeconomic stability. These factors can guide you through the management of public finances, components of public finance, and to realize its significance. So, it can be concluded that the financial status of a nation can be calculated using its financial statements. This course is designed to study the effect of the budget on growth, stability, equity, and efficiency of an economy.
